# ACKNOWLEDGEMENT

**Feeling gratitude and not expressing it is like wrapping a present and not giving it.**  
---(William Arthur Ward,2010)

First of all I would like to thank Almighty God who made all things possible.

Now the time has come when I want to express my gratitude for a number of persons who stood behind me all throughout my study. This dissertation is the end of my journey in completing my M.Ed Program.

I am greatly indebted and thankful to my guide, **Dr. Vandana Talegaonkar**, for her patience, motivation, enthusiasm, and immense knowledge. Her guidance, insight and encouragement helped me all throughout writing of this dissertation.

I would like to express my gratitude to Principle Sir, **Dr. P.V. Xavier**, and all my teachers for their continuous support and encouragement.

My gratitude also goes to my in-laws **Mr. J.P. Jhakal** and **Ms. Kailash Jhakal**, and my parents **Mr. B.M. Apoorva** and **Ms. Anita Apoorva**, for their undivided support and interest, which inspired me and encouraged me to continue my studies and without their support I would be unable to complete my M.Ed program.

Now I would like to thank my little angel daughter **Eiha Jhakal** , who was too young when I started my M.Ed program, yet she made adjustments with the demanding situations. I would like to express my gratitude to my husband, **Mr. Amit Jhakal**, for his love, care, and moral support. He was always with me during happy and hard days of study and motivates me to move on the path of success.

I also thank all the school's pricipales and head of departments of parallel education institutes, who gave me permission to conduct research in their institutes.

My regards and blessings to all of those who supported me in any respect during the completion of the project.

**AKANSHA APOORVA**
