ACKNOWLEDGEMENT

The writing of this dissertation has been one of the most significant academic challenges I have ever had to face. Without the support, patience and guidance of the following people, this Study would not have been completed. It is to them that I owe my deepest gratitude.

Dr. Mandira Sikdar, who undertook to act as my supervisor despite her many other academic and professional commitments,. Her wisdom, knowledge and commitment to the highest standards inspired and motivated me.

Dr, P. V. Xavier and other faculty members, who inspired my final effort despite the enormous work they have.

My humble thanks to all the Principals, Teachers and students for giving their precious time and information for the successful completion of my dissertation.

Most importantly, I would like to thank my parents for being my inspiration and all my friends, who have always supported, encouraged and believed in me and in all my endeavours.
