

List of Table

| | |
|---|-----|
| Table 2.1 Ultimate Tensile Strength (UTS), yield stress, elongation, joint efficiency and process parameters of various welded MMC (cont.)..... | 38 |
| Table 3.1 Chemical Composition of AA 2014 | 50 |
| Table 3.2 Tensile strength of all specimens taken from different composition..... | 65 |
| Table 3.3 Initial weight, final weight and difference in weight of stir cast specimens | 68 |
| Table 4.1 Process parameter of trial experiments and surface morphology of the processed composite (cont.)..... | 81 |
| Table 4.2 Comparison of change in mass of as-cast, T7 processed and T9 processed wear specimens..... | 103 |
